## THE TRIBUNE.

SOUTH CAROLINA .- We mentioned yesterday the convening and organization of the Legislature. We see by later papers that Hon. W. C. PRESTON has resigned his seat in the Senate. It is probable that Mr. McDuffie will be elected immediately to take his place. Mr. Calhoun's resignation is expected at the close of the present session.

The Message of Gov. RICHARDSON is very long and mainly occupied in the discussion of topics of local interest. Congress is liberally denounced for passing the Single District Bill, the Distribution Bill and the Tariff, and the Compromise Bill is spoken of most absurdly as 'a solemn treatyratified in the face of the Nation, approved and commended by our sister States.' The Governor details with pathetic eloquence the patient submission with which South Carolina has endured its operation and claims great credit for having regarded this law of the Union, "amid all the multiplied opportunities afforded by party rancour, and political intrigue - when the weakness of an administration sought support on the most Southern terms -when ambitious aspirants courted alliances and proffered concessions, and when the Democratic principles of the late administration were ready to accord us all its aid and sanction."-Verily it did require no little virtue to withstand all these tempting bribes to treason held out by Northern men with Southern principles! Then comes the Gubernatorial wail over the Tariff:

"And now, the anxiously expected period having arrived for the commencement of the promised era of free trade and reform, our concessions are met, and our confidence betrayed, by the reestablishment of a system of restrictive duties, more odious, oppressive, and unjust, than any that has ever yet desolated the prospects or blighted the destinies of the South.

The Message insinuates pretty broadly that our Government ought to declare war against Mexico, in order to secure the independence of Texas, and speaks in high terms of the recently ratified Treaty with Great Britain, with only this draw-back:

While, however, so much has been achieved to allay the spirit of war and dissatisfaction, arising out of the border aggressions of a few lawless citizens, and the contested jurisdiction of a barren territory, it is to be regretted that so little has been conceded to the protection and security of Southern property and institutions, against the piratical spotiations and interference of foreign functionaries. In this aspect, and indeed, for all practical purposes, it would seem that the guaranties of the Constitution, to protect those institutions, have been utterly annihilated from the unredeemed and enumerated pledges of the Confederacy, "to provide for the common defence and general welfare.'

Of New-York the Governor thus speaks:

The position of alliance which this State has assumed, in defending the institutions of the South, against the aggressive legislation of New-York, is of a character too important and interesting to be overlooked, in the deliberations of the present session. The wise and necessary inspection law-instituted by Virginia, to regulate her commercial relations with that State, and adopted with great propriety, and, I trust, salutary effect, in this-has been executed, so far as it has been in my power to enforce it, with the most exact and rigid adherence to its provisions and requirements. The measure, mild, temperate, and defensive as it is-the least that an injured State, or an aggrieved people could resort to, to protect the rights and property of the citizen-forbearing and constitutional as it must be admitted by all States and Nations to be -has, I regret to say, not been responded to, by the repeal of those obnoxious measures against the institutions of the South, upon the evidence of which, I should have been authorised to suspend its operations.

Yet it has not, I trust, been altogether without its effect upon the counsels, or its moral influence upon the justice and the magnanimity, of the enlightened people of New-York. The principles of democracy, about to be ascendant in her counsels, will unquestionably repudiate the injustice af enacting aggressive laws to violate the rights and institution of a sister State. The late decisions of the Federal Judiciary too plainly prohibit and discountenance such daring and wanton outrages upon the guaranteed and sovereign rights of an independent member of the Confederacy. The confidence of her people has already been shorn of influence by the actors and instigators of that unwise and illiberal proceeding; and the official aggressors themselves, rebuked, dishonored, and distrusted, are about to be consigned to a merited and retributive obscurity.

No other legislative action is perhaps necessary at this time, but to reenact the provision of the law, leaving it discretionary with the Executive to suspend its operation, in the event of those favorable contingencies arising, which would render it expedient to exercise it.

Many gratifying, although unofficial, assurances, induce us to hope for a speedy renewal of our amicable relations with a sister State whose importance, as one of the largest and most commercial members of the Confederacy, as well as the sound democratic principles and enterprising spirit of her people, and above all, the friendly associations hitherto subsisting between us, render in every respect desirable.

WONDERFUL EFFECTS OF SANDS'S SARSAPA-RILLA IN NORWICH.

Read the tonowing from Mrs. Wm. Phillips, who has ong resided at the Falls. The facts are well known to all

long residents in that part of the city.

MESSAS, A. B. SANDS & Co., SIRS: Most gratefully do I embrace this opportunity for stating to you the great relief I obtained from the use of your Sarsaparitia. I shall also sake of many who may be so surely relieved, I will briefly

Nineteen years ago last April a fit of sickness left me with an Erysipelas eruption. Dropsical collections immediately took place over the entire surface of my body, causing such an enlargement that it was necessary to add a hair yard to the size of my dresses around the waist. Next followed, upon my limbs, nicers, painful beyond description. For years, both in summer and winter, the only mitigation of my suffering was found in pouring upon those parts cold

my saffering was found in portring upon those pairs that water. From my limbs the pain extended over my whole body. There was literally for me no rest, by day or by night. Upon lying down these pains would shoot through my system, and compel me arise, and, for hours together, walk the house, so that I was almost entirely deprived of wais the house, so that I was almost entirely deprived of sleep. During this time the Erysipelas continued active, and the cleers enlarged, and so deeply have those eaten, that for two and a half years they have been subject to bleeding. During these almost twenty years I have consulted many physicians. These have called my disease-as it was attended with an obstinate cough, and a steady and active name in my side—a drawsical consumption: and and active pain in my side—a dropsical consumption; and and active pain in my side—a dropsical consumption; and though they have been skillul practitioners, they were only able to afford my case a partial and temporary relief I had many other difficulties to complicated to describe. I have also used many of the mediciness that have been nmended as intallible cures for this disease, yet the recommended as intalible cures for this obsesse, yet these all failed, and I was most emphatically growing worse. In this critical condition, given up by friends, and expecting for reyself, relief only in death. I was by the timely interposition of a kind Providence, jurnished with your, to see, invaluable Sarsaparilla. A single bottle gave me an assurance of health, which for twenty years I had not once felt. Upon toking the second, my enlargement diminished, and in treatre days from the 3th October, when I compared the provided the property of the provided and in freefre days from the 5th October, when I commenced taking your Sarsaparilla, I was able to enjoy sleep andrest, by night, as refreshing as any I ever enjoyed when in perfect health. Besides, I was, in this short time, relieved from all those excratitating and unalleviated pains that had afflicted my days, as well as robbed me of my night's repose. The ulcers upon my limbs are healed, the Erysipeias cured, and my size reduced nearly to my former measure.

Thus much do I feel it a privilege to testify to the efficacy of your health-restoring Sarsaparilla. A thousane

cacy of your health-restoring Sarsaparilla. A thousand thanks, sirs, from one whose comfort and whose hope of future health are due, under God, to your instrumentality. And may the same Providence that directed me to your aid, make you the happy and honored instruments of blessing others, as diseased and despairing as your much reved and very grateful friend.

New-York, Oct. 19, 1842.

Messas, Sands—Gentlemen: If you alone were concerned in the present statement, the great inducement for making it would be removed; for of course no testimony can strengthen your own convictions in relation to the value and efficiency of your Sarsaparilla, which has already proved such a blessing to the many hundreds who have used it. But I have looked upon the world encircling in its arms thousands bowed down with unferings similar to my own, who would gladly hasten to the same source that restored my health, if they were persuaded they would meet with the same happy results. Therefore, gentlemen, it is that those thousands may be convinced, and profit by their conviction as I have done, that induces me to state before the world a period of suffering such as few have known, and the permanent relief I received from your Sarsaparilla. But how shall I begin, or how describe these excucinting agonies that seized upon my frame? Early in the month of June, 1840, I was first attacked with rieumatism, caused, I have reason to believe, by a severe cold NEW-YORK, Oct. 19, 1842.

natism, caused, I have reason to believe, by a severe cold

tracted while nursing one of my children, who was then

My suffering soon became intense, everywhere I seemed diseased. For five months I was unable to walk, and for six weeks did not lie upon a bed, but was obliged to remain six weeks did not he upon a bed, but was obliged to remain in a sitting posture, that being less agonizing than any oth-ier. My whole body was so sore and racked with pain that the slightest touch caused inexpressible distress. For a per-ion of many months I did not sleep but two dights, and the only rest I obtained was during the day, when nature be-came exhausted and I fell into a slumber, from which I was soon awakened by the beating and throbbing pala. My limbs were swollen and my shoulders drawn out of place, and altogether I was rendered sufficiely helpless. I obtained to be the medical agiver, but without receiving any permae best medical advice, but without receiving any perma sent relief. The rheumatism being combined with a swell-ag and painful affection of the joints, rendered it still worse. Parmors formed under the skin, round my head, which burning and lanciating pains similar to scrofula of

e giantis. My groans at night caused the watchman to stop in the My groans at night caused the watchman to stop in the street as he pass of by; and when many of my friends residing in Poughkeepsie last visited me, they bid me farewell, as they then thought for ever; and once the family assembled in the room to watch the last spark of life go out. But the flame of life again glared up within me; and soon after this I heard of your Sarsaparilla, and determined to try it; and behold the result. After taking one bottle the pain left me, and I was able to walk and sleep. I could scarcely realize the transition—so sudden, so complete. After using four or five bottles, I was entirely cured. And are you alone, gentlemen, concerned to know it? I think not; and this language is too mild for the occasion. For I know that the medicine that possesses the power to cure me know that the medicine that possesses the power to cure m know that the medicine that possesses for power to cure me is capable of conferring the same blessing upon thousands of others suffering—perhaps dying; therefore, these are all concerned to know that they can be cured. In fact, all are concerned in the discovery of any thing that tends to promote the happiness of the human race; for we are social beings, and cannot suffer alone. Persons may doubt this statement if they will, and go on and suffer and die, I have discharged a duty which I felt incumbent upon me in making it known for the benefit of those who choose to befieve it. And when I look into the past—upon those solitary days and sleepless nights—I thank God that I am as I am. And I thank you, gentlemen, that you have made science minister unto our infirshities, and I for one, will proclaim the fact.

Respectfully.
